

Insurance Claims Evidence Research: Illustrative Evidence Brief

ILLUSTRATIVE SPECIALIST EVIDENCE BRIEF | PUBLIC-SOURCE AND SERVICE METHODOLOGY

No completed client matter is represented. This document demonstrates questions, evidence requirements, limitations and possible deliverables. It contains no verified findings about a named buyer or company. A matter, source access, fixed fee and timing require separate written acceptance.

Commissioned decision

This specialist review focuses on **Insurance Claims Evidence Research**, within **Insurance & Reinsurance Intelligence**. The decision owner asks: **What happened, when, and which independent records support the event account?** The specific fact being tested, relevant entity, territory and historical period must be defined before any casework.

Narrow first commission

Investigate one named subject, one agreed current-versus-historical claim, the most relevant public incident report and one independent cross-check. Stop if original records are unavailable or the decision cannot be resolved in the agreed scope.

Original-record plan

- Source the exact original public incident report and capture jurisdiction, publisher and date.
- Verify identity against regulator release and document whether it is independent.
- Test wrong loss date as a rival explanation.
- Check the alternative conflicting event location rather than treating an unreturned search result as exculpatory.
- Ask whether estimated loss presented as fact would require the decision owner to commission a qualified specialist.

Illustrative two-page PDF composition

Page 1: Case-neutral purpose, exact research questions, allowed source universe and decision relevance; do not name a supposed real client.

Page 2: Source-to-question matrix with no fabricated findings, a material contradiction register, a precise request for the missing original records and reliance boundaries.

Specific deliverable tables: incident event chronology, alternative explanation review, source chain log.

Example report table (empty until an authorised case)

Evidence question; Proposed source; What must be verified; Result

Which entity/asset is named?; public incident report; Exact identifiers and record period; Not investigated in this specimen

Does the claim survive a contrary source?; regulator release; Independence, timing and scope; Not investigated in this specimen

What would change the answer?; historical weather records; wrong loss date; Not investigated in this specimen

Applicable source portals

Ref; Primary source / comparator; Link; Evidence limitation and status

KROLL; Kroll: Investigations, diligence and compliance service model;
<https://www.kroll.com/en/services/investigations-diligence-and-compliance>; WEB CHECKED 2026-10-12. Competitor service model; no affiliation or implied equivalent investigative licence

S01; SEC EDGAR filings; <https://www.sec.gov/search-filings>; REGISTER STARTING POINT; NOT NEWLY RECHECKED. Source candidate; subject relevance, date and access must be verified case-by-case.

Buyer action and exclusions

- Reader: Claims teams, insurers, brokers and dispute counsel.
- Commercial trigger to check: Major loss, catastrophe, suspected fraud or coverage dispute.
- Send the decision question and identifiers through the existing written-enquiry route; do not send restricted records by insecure email.
- **Professional boundary:** No claims adjusting, actuarial certification or coverage determination.
- Do not imply the claimed facts are proven, that this is a completed sample case, or that named competitors have endorsed Aperture.

Release quality controls

- Confirm the appointing client, exact research question, relevant location, decision date, conflicts, privacy, sanctions and licensing.
- Check original source identity, authority, issue date, effective date, retrieval timestamp, version and lawful access.
- Reproduce important calculations and compare at least one plausible contrary explanation.
- Keep allegations, regulatory findings, historical claims and unresolved matches distinct.
- Mark each proposed finding supported, partially supported, contradicted, unresolved or outside mandate; include missing-source requests.
- Confirm that illustrations do not imply a real engagement, completed investigation, certified outcome or affiliation with named comparators.
- Obtain final human sign-off on accuracy, legal boundaries, confidentiality, claims and publication version before release.

Professional boundaries: Independent research support only. No legal, tax, investment, audit, valuation, brokerage, investigation requiring a specific professional licence or regulated opinion is implied. No confidential material should be sent before instructions.
